As the CEO of Smart Vision, I am proud to steer our company into a future rich with potential and marked by expansion. Since our inception in 2009, we have not only organized premier exhibitions and conferences but also provided invaluable consultancy services that have shaped the financial landscape in Egypt, the United Arab Emirates, and beyond.

Our journey has been one of strategic growth and steadfast commitment to excellence. With a robust presence in the Middle East, Asia, and Africa, and a portfolio that boasts over 150 clients across 30 countries, Smart Vision has become synonymous with innovation and expertise in the financial sector.

Dr. Mohamed Elnozamy

In the coming years, our vision is to solidify and expand our footprint in organizing international exhibitions and conferences. The Middle East, Asia, and Africa present a tapestry of diverse markets, each brimming with opportunities for financial dialogue and business advancement. Smart Vision is poised to be the conduit for this growth, providing platforms where ideas converge and future partnerships are forged.

Our ambition is not just to grow in scale but also in smart solutions. We are establishing a Smart Committee dedicated to orchestrating exhibitions and conferences with precision and foresight. This committee will harness the collective wisdom and experience of our board of directors, which brings over two decades of financial market acumen to the forefront.

As a licensed entity in Egypt and the United Arab Emirates, we understand the nuances of these dynamic markets. Our strategy involves leveraging this deep regional understanding while tapping into emerging market trends and technological advancements. This dual approach ensures that our clients, ranging from major banks to fin tech startups, receive strategies and insights that are both cutting-edge and culturally attuned.
